

U.S. Monthly Maintenance Record, MGBA-355

14 May 2025

To comply with U.S. Federal Regulations, this form must be completed, signed, and submitted to FedEx by the 20th of the month following the month for which repairs, or maintenance were performed on any service provider-owned or -leased equipment. Submit one record for each piece of equipment, even if not regularly providing services.

Maintenance Record for the Month and Year of:

Service Provider Company Name:

Vehicle Unit #:

Domicile Station/Hub:

Current Mileage* (Odometer Reading)

*If reading has decreased due to odometer repair/replacement, proof should also be provided. If unit is undergoing repair and unavailable, "N/A" may be utilized for current mileage.

Were any repairs, or preventative maintenance performed on this unit?

☐

Yes

☐

No

If "no" maintenance was performed, was the unit out of service and unable to provide service (i.e., awaiting repair, on litigation hold, etc.)?

☐

Yes

☐

No

All repairs/replacements, or maintenance performed in conformance with a vehicle's Maintenance Interval Form or any other major vehicle system must be reported on an MMR with detailed notations or attached receipts.

All notations must provide enough detail for a DOT official to determine what component(s), location(s), and type of work was performed (e.g., replace, repair, adjust, etc.).

Annual Federal/State and Pre/Post trip inspections must not be reported on the MMR, however repairs and maintenance of components that resulted from these inspections must be reported on an MMR.

General maintenance (e.g., oil/filter changes, lubrication, adjustments) should be reported with adequate detail to clearly convey what components were repaired or maintained. Abbreviations such as "LOF" or "PM" cannot be used, as these do not provide adequate details.

Date of Maintenance	Specific Description of Maintenance Performed

☐ By checking this box, I declare that this record is true and correct. Unless otherwise clearly indicated as "out of service" on this record, I confirm that the equipment on this record is in compliance with the Federal Motor Carrier Safety Regulations 49 C.F.R. 396.3(a)(1) and 396.7 (a) and is in safe operating condition and meets all federal, state and local motor vehicle laws. Furthermore, I confirm that preventative maintenance is consistent with the interval schedule per 396.3(b)(2).

Signature of Authorized Officer or Business Contact:

Date Completed:

* The Monthly Maintenance Record (MMR) is FedEx's systematic method of obtaining vehicle maintenance records for service provider-owned vehicles in compliance with the Federal Motor Carrier Safety Regulations which require motor carriers to have a systematic method of causing vehicles operating under their motor carrier operating authority to be repaired and maintained. Therefore, if FedEx does not receive records for a vehicle by the 20th of the month following the month in which maintenance or repairs were performed, packages will not be made available to this vehicle.
